Dear Tomohisa!

We started to use your Work Time plugin.  
It seems it will be a huge help for us to  
manage time logs, thank you for it.  
We have a few questions, though:

1. Do you have an English version of the documentation?  
Google translate did not help much with the pictures:  
<http://www.r-labs.org/projects/worktime/wiki/Usage>

2. Is there a way to edit other user's entries?  
There is no Update button there.  
We have a Rubby programmer, he might work with it,  
some guidance would be great.

Thank you and best regards,

\*\*\* Sarkozy
