

Issue Template - Proposal #1288

Set Version, Assignee, Status and other fields when editing templates

10/17/2013 11:14 PM - I. Dem.

Status:	□□□New□	Start date:	10/17/2013
Priority:	□□□Normal□	Due date:	
Assignee:	Akiko Takano	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Future Release		

Description

I'm using plugin version 0.0.5. In this version, templates have Title and Description fields.

Plugin would be much better if templates would have more optional fields: Version, Assignee, Status etc, so such fields could be pre-filled when creating new issues.

Stage 1: Make it possible for all standard built-in fields of an issue.

Stage 2: Make it possible for custom fields.

Your plugin is already useful and handy, with such improvements it would be brilliant!
