

## Wiki Extensions - Defect #1307

### Wiki Extensions: sortable tables won't work in issues

02/12/2014 07:12 PM - André Bachmann

<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 0.6.5	<b>Spent time:</b> 0.00 hour

#### Description

#### What steps will reproduce the problem?

Let's create the following table in Redmine's wiki:

Nr.	Kurzbeschr.	Bearbeiter	Prio	Bemerkung
1.	detection	me	1	
2.	Test Softreset	me	3	

This works fine, I can sort the columns by clicking on their first entry.  
However, if I use the same table within an issue, the sorting mechanism doesn't do anything.

#### What is the expected output? What do you see instead?

I expect the sorting of columns would also work with tables in issues.

#### Please give us a result of following command.

```
% ruby script/about
bash-4.1# ruby script/about
Environment:
  Redmine version      2.3.1.stable
  Ruby version         1.9.3 (x86_64-linux)
  Rails version        3.2.13
  Environment          production
  Database adapter     Mysql2
Redmine plugins:
  redmine_wiki_extensions 0.6.3
  redmine_wiki_lists     0.0.3
bash-4.1#
```

#### Please provide any additional information below.

#### History

##### #1 - 02/15/2014 02:26 PM - Haru lida

- Project changed from *r-labs* to *Wiki Extensions*
- Status changed from    New  to   Assigned
- Assignee set to *Haru lida*
- Target version set to *0.6.5*

##### #2 - 03/09/2015 08:26 PM - André Bachmann

I just want to mention that the issue is still there with `redmine_wiki_extensions` 0.6.5:

```
ruby script/about
```

```
Environment:
```

```
Redmine version      2.6.2.stable  
Ruby version         2.0.0-p598 (2014-11-13) [x86_64-linux]  
Rails version        3.2.21  
Environment          production  
Database adapter     Mysql2
```

```
SCM:
```

```
Subversion           1.8.10  
Bazaar               2.1.2  
Git                  1.7.2.5  
Filesystem
```

```
Redmine plugins:
```

```
redmine_wiki_extensions 0.6.5  
redmine_wiki_lists      0.0.4
```
