

e.x.

```
{{ref_issues(-f:project=prjA, -c)}}
```

- new comparison operators, eg. "!=" and ">". Especially the ">" or "<" would be helpful to filter by date

<<operators>>

```
class_attribute :operators
self.operators = {
  "=" => :label_equals,
  "!=" => :label_not_equals,
  "o" => :label_open_issues,
  "c" => :label_closed_issues,
  "!*" => :label_none,
  "*" => :label_any,
  ">=" => :label_greater_or_equal,
  "<=" => :label_less_or_equal,
  "><" => :label_between,
  "<t+" => :label_in_less_than,
  ">t+" => :label_in_more_than,
  "><t+" => :label_in_the_next_days,
  "t+" => :label_in,

Wow! This was fast smile.png

One additional thing: support for field names for custom fields would be nice also

#4 - 07/19/2015 08:18 PM - Tomohisa Kusakawa

- Related to Question #1370: assigned_to_id [] added

#5 - 07/25/2015 05:28 PM - Tomohisa Kusakawa

- Status changed from [] Resolved [] to [] Closed []
