Description

What steps will reproduce the problem?

Insert check.png x_mark.png warning.png into issue. Export issue to pdf.

What is the expected output? What do you see instead?

Expected to see checkmark, x, or warning icon in pdf. Instead name of picture is seen instead. Ex: check.png, warning.png, etc.

Please give us a result of following command.

```
% ruby script/about
```

```
Environment:
