

Wiki Extensions - Feature #822

Include the table of content from another wiki page

09/12/2011 06:56 PM - Kai Zimmermann

Description			
The possibility of integrating the table of content from other wiki page would be great. like .. <code>{{>Demo:toc}}</code> I would use it on a summary page, rather than a simple list of wiki pages. An alternative would like a summary, like if you write a news entry.
